## WESTERLY MAN INSTANTLY KILLED

Harris P. Chapman Falls from Roof of His Barn—State  
School for Runaway Boys—David Thompson Held  
for Attempting to Aid Mandeville Hall to Escape—  
Teamster Seriously Injured.

Joseph Ennis, teamster in the em-  
ploy of the Klondike quarry, drives a  
team of six horses with a low gear  
truck, weighing four tons and a carry-  
ing capacity of twelve tons. He had  
driven from town to the barn, Chase's  
Hill and taken one horse from the out-  
fit when one of the other horses began  
kicking, causing excitement among the  
team that resulted in a runaway for a  
short distance.

Mr. Ennis in endeavoring to check  
the horses was knocked down and the  
heavy low gear passed over his breast  
and arms, rendering him unconscious.  
Dr. Briggs was called and he sum-  
moned a physician from Westerly to  
assist. Mr. Ennis' left arm was broken  
between the shoulder and elbow, the  
right arm dislocated at the shoulder  
and four ribs of the left side broken.  
He was also bruised in the face and  
received a deep cut under the right  
eye. It is believed he has been in-  
jured internally. He is 47 years of age  
and in robust health and may be able  
to survive.

There is fear of water famine in the  
village of White Rock. Twenty-five  
wells, from which the water is usually  
supplied, are completely dry and others  
are very low, although every possible  
precaution has been taken to prevent  
wastage. Conditions are made even  
worse by the fact that in the wells  
where the water is low, as well as in  
the new dry wells, the bottom is cov-  
ered by myriads of small black toads.  
It is said that the threatened water  
famine will be brought to the attention  
of the Westerly town council at the  
regular meeting next Monday and  
provision made for the emergency. A  
temporary pipe line may be laid above  
ground from the pumping station which  
supplies the village of Westerly and  
Watch Hill to the village of White  
Rock, a distance of half a mile. By  
this means the residents of White  
Rock could be served with water un-  
der such times as the wells were cleaned  
and water supplied from the usual nat-  
ural sources.

Chief Bransfield and assistants, armed  
with search warrants, went to the  
section known as the Fair View Plat-  
tine Monday night and raided the  
premises of a man known as Arthur  
Yump, who was suspected of selling in-  
fected liquor, which is contrary to  
law in the town of Westerly.  
The chief found and seized half a  
barrel of ale and secured evidence that  
would indicate that beer was sold on  
the premises. Arthur had been under  
suspicion for some time and when he  
is brought to trial it will be shown  
that the present case was not his first  
offense of this character.

Work on the brick mill building for  
the Westerly Narrow Fabric company  
is nearing completion. The big build-  
ing is all closed in by the roof covering  
is nearly finished and the windows and  
doors will be in place within a week.  
The work of grading for the floor has  
been started and it is expected that  
the entire work, aside from the ex-  
terior painting, will be completed in  
the next two weeks.  
The structure is of the most sub-  
stantial build, is well lighted and ven-  
tilated and by the use of heavy trusses  
there is but one line of posts on the  
main floor. This floor will be made  
of hot tar concrete and will be  
laid planking three inches and 1/2  
in thickness and then covered with  
one inch maple flooring, which gives  
an idea of the general construction of  
the building—first class in every de-  
tail. There is room on the main floor  
for one hundred of the large Steere  
narrow fabric looms, and half that  
number will be installed as intently as  
possible. It is expected that looms will  
be in operation in the new mill by  
Nov. 1.

David Thompson, a discharged pris-  
oner from the Washington county jail,  
who is charged with an attempt to aid  
Mandeville Hall, the New York society  
man, who is held for passing worth-  
less checks, was held for trial at  
Mandeville Hall, where he is held for  
trial in the superior court, is liable to serve  
another jail term.  
He is accused of furnishing a hack-  
saw and several saw blades to Hall,  
who was caught in the act of sawing  
the bars of his cell window. Thompson  
was arraigned before Judge Nathan  
B. Lewis in the second district court  
at Wakefield and found probably guilty  
and was held for the action of the  
grand jury at the September session  
of the superior court.

Chief Bransfield went to Natick  
Tuesday afternoon and arrested two  
boys who had been loitering about  
the village since Friday, their names  
becoming suspicious and objectionable  
to residents. The boys gave their  
names as Edward Dowd and Frank  
McCartland, their home, Providence,  
and their ages as 15 and 16, respectively.

They had recently been arrested for  
variance in Williamette, they said, but  
were released and ordered to leave that  
city. Since then they had traveled  
from place to place, avoiding cities  
and large towns in the hope of avoiding  
the police.

The boys were arraigned before  
Judge Williams of the Third district  
court and they were ordered to the  
Sokenessett school for boys.

Harris P. Chapman, son of Mrs.  
Bridget A. Kenyon-Chapman, and the  
late Harris P. Chapman, who resided  
on the homestead farm on the Shore  
road, Westerly, was instantly killed by  
falling from the roof of the barn Tues-  
day afternoon. He was engaged in  
shingling when he slipped and fell,  
struck on his head, breaking his neck,  
and death was almost instantaneous.  
He was a farmer by occupation, suc-  
ceeding his father in the conduct of the  
old Harris Chapman farm.

## Plans to Protect Boston.

As a part of the plan of the general  
staff of the army to protect the land  
approaches to every large city on both  
the Atlantic and Pacific coasts in case  
of real war, engineers have for four  
months been working quietly within 50  
miles of Boston. Boston has long been  
considered impregnable on the water  
side, and the plans now being worked  
out are expected to do as much for the  
land side. Secrecy is maintained as  
to the details but the general idea is  
a line of defense along commanding

## NEW BOOKS.

"There She Blows!" A whaling yarn;  
by James Cooper Wheeler. Fancy  
Cloth; Illustrated. Published by  
E. P. Dutton & Co., New York.  
Price \$1.20 net.

A breezy, quick-moving tale of deep  
sea adventures in the '40s, when bluff  
and hearty sailors went whaling in  
staunch craft from the ports of New  
Bedford and Sag Harbor. The author  
has lived most of his experiences  
which he narrates, and his Captain  
Lounge, Joe Stoddard, Tom Morrison  
and other jolly sea-dogs were real  
people. The cruise of the *Anna* is a  
story to delight any boy reader with  
good red blood in his veins.

Foundations of German. By C. F.  
Keyser, Ph.D., professor of the  
German language and literature,  
Normal college of the city of New  
York, and F. Montessor, head of  
German department, DeWitt Clin-  
ton high school, New York. Cloth,  
12mo, 224 pages. American Book  
company, New York. Cincinnati  
and Chicago. Price 50 cents.

This book presents only topics which  
are absolutely essential, and presents  
them briefly and clearly. It makes  
large use of what has been called  
"living grammar," and thus enlivens  
the instruction, stimulates self-study  
and develops the feeling for cor-  
rectness in speech. It lends itself ex-  
tensively to conversational practice, as  
the vocabulary is selected from the lan-  
guage of everyday life, and the phrases  
are of a colloquial and strictly read-  
ing character. The connected read-  
ings are lively and offer material for  
composition and reproduction.

Selections from Byron, Wordsworth,  
Shelley, Keats, Browning. Edit-  
ed by Charles Townsend Copeland,  
lecturer on English literature in  
Harvard university, and Henry  
Miller Rideout. Cloth, 18mo, 311  
pages. American Book company,  
New York. Price 40 cents.

This, the most recent addition to the  
Gateway Series of English texts, the  
general editor of which is Henry Van  
Dyke, contains 92 selections, all of  
which are included in the college en-  
trance requirements in English. In  
connection with the selections from  
each of the poets is an introduc-  
tion giving a short biography and some  
account of the author's work. The  
notes are brief and supply only need-  
ful assistance. The poems included  
are such as every pupil should be fa-  
miliar with, and as here presented  
they are in a form which makes them  
clear, interesting and helpful.

## Get Big Men Behind You

That was the doctrine of Andrew Carnegie.  
And that is the secret of every great business  
success.

If you have big possibilities, get big men to  
fulfill them.

Get them in every department. But, above  
all, get big men in advertising—in selling your  
goods to the millions.

The big men are the profit makers in all  
lines of salesmanship.

You know that is true of your road men,  
who meet but a few of your customers. Then  
how true must it be of your salesmen-in-print?

Why does one article dominate a field, and  
an equal one remain unknown?

Why does one advertiser win enormous suc-  
cess, and another in the same line utterly  
fail?

Nine times in ten the reason lies solely with  
the salesmen-in-print.

One employs capacity, one incapacity. One  
fights with cannons, the other with arrows.  
And the curious fact is that both pay the  
same price.

Successful advertising isn't an easy matter.  
The men who can do it are exceedingly rare,  
and they command the rare man's pay.

The only way to get them is to make a busi-  
ness of getting them—to seek and sift and  
develop. That is our business, and it has been  
for 36 years.

Our plea is this: Whatever is worth doing  
is worth doing well.

These are days of giants' combats in the  
advertising field. The man who strikes with a  
puny stroke does himself an injustice.

If you believe in big men, and want to  
know how to prove our powers, ask us to  
state the way.

These men are at your service, if you have  
a line which offers them a chance.

They are willing to prove by a test campaign  
that they can outsell any other men in the  
field.

They can do it every time, in every salable  
line. For they combine their abilities. And  
this is the ablest corps of advertising men in  
America.

We shall ask no contract, no commitment,  
no statement of what you will spend. All will  
depend on results.

We offer you this service—the service of big  
men—for the usual agent's commission; for  
the price of the commonplace.

What ever is worth doing  
is worth doing well.

These are days of giants' combats in the  
advertising field. The man who strikes with a  
puny stroke does himself an injustice.

If you believe in big men, and want to  
know how to prove our powers, ask us to  
state the way.

ANOTHER  
WOMAN  
CURED

By Lydia E. Pinkham's  
Vegetable Compound

Gardiner, Maine.—"I have been a  
great sufferer from organic troubles  
and a severe female  
weakness. The  
doctor said I would  
have to go to the  
hospital for an  
operation, but I  
could not bear to  
think of it. I de-  
cided to try Lydia  
E. Pinkham's Ve-  
getable Compound  
and Sanative Wash  
—and was entirely  
cured after three  
months' use of them."—Mrs. A. A.  
WILLIAMS, R. F. D. No. 14, Box 39,  
Gardiner, Me.

No woman should submit to a surgi-  
cal operation, which may mean death,  
until she has given Lydia E. Pinkham's  
Vegetable Compound, made exclusive-  
ly from roots and herbs, a fair trial.

This famous medicine for women  
has for thirty years proved to be the  
most valuable tonic and renewer of  
the female organism. Women resid-  
ing in almost every city and town in  
the United States bear willing testi-  
mony to the wonderful virtue of Lydia  
E. Pinkham's Vegetable Compound.  
It cures female ills, and creates radi-  
ant, buoyant female health. If you  
are ill, for your own sake as well as  
those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass.,  
invites all sick women to write  
her for advice. Her advice is free,  
and always helpful.

Ceresota  
Flour

works for your benefit whichever way  
you try it, whether for Bread or Biscuits.

If to produce the greatest quantity  
from an equal amount, then get Ceresota.

If to produce the finest quality for  
comparative price, then get Ceresota.

If to economize, retaining its nutty  
freshness longest, then get Ceresota.

Think of any argument you like—  
you can't argue against Results.
